

# CYBER SECURITY OPERATIONS

Bringing together world-class industry leading technology solutions, processes, training, and services to deliver holistic synthesized solutions.

*Adversaries are getting increasingly creative and protecting your data and infrastructure is becoming more and more complex each and every day.*

***This is why MAD Security has pioneered a multidisciplinary approach to Cyber Security .***

## Cyber Security Health Check

Evaluate your current security posture and make recommendations for advancement.

## Security Architecture and Design

Develop an architecture that is secure, cost-effective, and most importantly integrates.

## Security Design and Integration

We “build in” the Cyber Security as the architecture is being developed to fully integrate into the network and your business to avoid gaps and vulnerabilities.

## Security Technology Solutions

MAD Security works with the leading product vendors providing innovative and robust security solutions to maximize capability while minimizing risk.

## Managed Services and Residencies

Expert security consultants with the advanced skill sets and experience you need, when you need it, and for the amount of time you need it for.

## Project Management

We can help you meet deadlines, allocate resources, complete tasks, and finish projects on schedule and on budget.

The MAD Security professional services team has deep expertise in delivering, maintaining, training, integrating, and consulting on a broad range of Cyber Security technologies and solutions. This team of experts is truly committed to Making A Difference focused on ensuring your organization has the most effective Cyber Security strategy possible.
